

IICUS meets with International Edexcel

The International Edexcel Management team has inspected and approved the Cricket NSW Auditorium as an accredited centre of operations for Australasia.

Working with Edexcel, the biggest awarding body of vocational qualifications in the UK and around the World, the partnership is working to provide an international qualification for cricket umpires which includes a solid grounding in man management and field craft.

The plan is to go further and provide basic training to developing cricket countries so that they will be able to train their own trainers to pass on the skills to new umpires.

The photograph was taken in the Trophy Room of the Sydney Cricket Ground and shows Linda Collins, Edexcel International Verifer; Dr. Steve Collins, Edexcel International Lead External Verifer; Denis Burns, IICUS Director of Education & Development; Darrell Hair, Deputy Chairman of ICCT and IICUS Tutor; Darren Goodger, IICUS Deputy Director of Education & Development and a Senior Tutor; Peter Hughes, Deputy CEO of the IICUS Board.
